

NORTHWIND SOLAR, INC. - ANNUAL REPORT

Item 1. Business

Northwind Solar designs and manufactures photovoltaic panels and inverters for residential and commercial rooftops. We sell through installers in twelve states and operate two factories in Arizona.

Item 7. Management's Discussion and Analysis

Revenue grew 18% to \$412 million on higher panel shipments.

Gross margin improved as polysilicon prices declined.

We expect continued growth from utility-scale contracts next year.
